

Dear Members of the Stake Council,

We are so pleased to share with you the following speaking topics and assignments as you prepare to speak in each respective Ward over the next 5 months.

As with the first half of the year, the Stake Presidency is not providing exact conference talks like what was done in the past. We trust that you will find the supporting information from the General Conference library (especially April 2025), the scriptures, and your own life experiences combined with revelatory inspiration to share with the members of the Stake.

Please be prayerful as you take on each speaking opportunity. Do not hesitate to council with the Bishop of the assigned ward to gain additional insight into how your message might best meet their local needs. From time to time, they may also want to move the day you speak to better align with their ward needs.

Messages should be focused on Christ and His restored gospel. Messages should reiterate the blessings of the Book of Mormon and modern-day temples. Messages should lift burdens and not increase guilt.

In line with guidance given to us by the First Presidency, topics below are designed to help focus on the gift of Christ all year long, just as we did between Christmas and Easter. Consider all that Christ has done and continues to do for each of us individually. We share in the hope brought by his birth, and His life as invited others to Follow Him which required change and sacrifice. How He showed charity to all, performed miracles, and went about doing good. He invites us to do the same and to become like Him. He paid the price for our sins and took upon himself our sorrows, griefs, and pains as part of the His Atoning Sacrifice. He died and was resurrected, sealing his purpose and mission and confirming that He was indeed the resurrected Son of God.

May we Light the World all year long with joyful and hopeful messages of Jesus Christ.

### **Stake Council Speaking Topic – July – November 2025**
